MICHAEL REYNA

SUMMARY

Problem-solving, detail-oriented, self-driven, and enthusiastic engineer with an eagerness to learn who is also adept at working independently and collaboratively, simplifying problems, and providing clear and effective solutions. Before entering the world of software development, Michael practiced finance law for an internationally recognized law firm.

SOFTWARE DEVELOPER EXPERIENCE

Software Developer (student) at 100Devs | Remote

January 2022 — Present

- Built semantically structured full-stack web applications.
- Collaborated with developers to build modern and responsive web applications using best practices.
- Utilized Postman to make API requests and test API endpoints.

RECENT PROJECTS:

Quizzical (React and CSS3)

- Trivia quiz that asks users to answer five random questions pulled from the Open Trivia Database.

Texas Teacher Salaries (HTML5, CSS3, Javascript, EJS, and Node.js/Express)

- Fullstack Web App: Responsive web application that allows visitors to view new hire teacher salaries and school district information for nearly one hundred school districts throughout Texas.
- API: Developed the database, query parameters, and all other components of the API.

NBA Teams & the Starting Five (HTML5, CSS3, and Javascript)

- Users can search NBA team names and obtain a variety of 2021-2022 regular season stats for the team entered and the starting five of said NBA team.
- Integrated with the balldontlie API to fetch data from various endpoints to manipulate the DOM.

WORK EXPERIENCE

Associate Attorney at Reed Smith LLP | Houston, TX

August 2021 — December 2021

- Managed document version control, document checklists, client and opposing counsel discussions, deal deadlines, client deliverables, attorney/client meetings, and client expectations.
- Analyzed and drafted a variety of financing documents for a U.S.-based high-tech commercial bank to ensure its customers understood how to maintain compliance with the legal requirements of the bank.

Associate Attorney at Cokinos Young | Houston, TX

March 2019 — July 2021
